

Run No487 Churston Ferrers - hares Troughie & Cow pat

The Hash gathered at Churston Court, very upmarket for the hash! Will they have us again ??? GM **Pullit** as usual had nothing much to say, but the hares more than made up for it. **Troughie** announced that all the marks were laid on the right hand side of the track or was it the left.. When asked to hold up the correct hand most of the hounds had no idea which paw was which.

Troughie informed us that the trail was 99% off road... People on the longs, I'm informed became very worried after running 1 ½ miles on the road since this then meant they had another 150 miles to go!!!

Despite the salubrious venue all was not so proper amongst the pack. The cleanest activities that night were performed by the young ones: - **Woof Woof** & **Phil** romped like puppies in the mud splashing anyone silly enough to get too close.

Missmatch & **Nashers** fell into each other's arms in a full embrace. **Going down** went down twice. Splendidly "she said" (who's the judge?)

Apparently **Slipstream** & **Jailer** stormed off together?? Nearly at the speed of **Poacher** who finished the race in 20 mins.

Twiggy seemed to enjoy herself - it's her old stomping ground?? Was that why she arrived in the bar looking hot, flushed & excited wearing PINK timberland boots?? Or had it something to do with her bullying & shaming an unwilling **big Bird** resulting in her having a dirty bum??

All these goings on and **troughie** had time on his hands for a bit of whittling, Perhaps he ran out of flour and was trying for some sawdust!!

Down Downs went to the hares Troughie & Cowpat
Twiggy for dirt on the bum
And a naming... Doggin' a mate for Woof Woof!

ON ON to who knows where?
